

## TREE SURVEY

### Legend and Key

The tree positions have not been surveyed with topographical mapping techniques owing to restricted land access. Their positions have therefore been assessed from public footpaths and roads.

Y - Indicates Tree Groups (refer to Tree Report)

The tree categories referred to in the Tree Report and Schedule are shown here and colour coded as follows:

<p>503 X Ash - Up to 30 years</p> <p>143 X Ash - 30 to 50 years</p> <p>16 X Ash - 51 to 99 years</p>	<p>130 X Other Species - Up to 30 years</p> <p>150 X Other Species - 30 to 50 years</p> <p>392 X Other Species - 51 to 99 years</p> <p>416 X Other Species - Over 100 years</p>
--	---

The field survey was undertaken throughout September 2019

The base mapping has not been revised or updated and shows some field boundaries for example that no longer exist on the ground
